

Weight Conversion Chart

In the NICU, we measure a baby's weight in grams. Use the table below to convert your baby's weight to pounds and ounces. First, find your baby's weight in grams on the white area of the table. Note the number at the top of the column; this is the number of pounds. Next note the number of the row to the left; this is the number of ounces. Combine the numbers for the total. Example: 1021 grams = 2 pounds, 4 ounces

Ounces	Pounds												
	0	1	2	3	4	5	6	7	8	9	10	11	12
0	0	454	907	1361	1814	2268	2722	3175	3629	4082	4536	4990	5443
1	28	482	936	1389	1843	2296	2750	3203	3657	4111	4564	5019	5471
